CellBlock LIBIK EHS Kits

Your Ultimate Tool Kit for Fighting Battery Fires

Our Wall-Mounted EHS Kit allows for the fastest possible deployment of fire suppression tools and safety equipment. Easy access to the LIBIK and its ideal for laboratory environments, hospitals, schools, offices and manufacturing settings.

PED-Pad Fire Suppression Pillow

- ✓ A quick and concise method of extinguishing a lithium-ion battery fire, while decreasing risk to the fire-fighter and reducing interaction time.
- ✓ Place over flame to release the inner CellBlockEX, our industry trusted and proven suppression agent used for fighting lithium-ion battery and device fires.
- ✓ CellBlockEX is mineral-based, entirely environmentally-friendly and non-toxic.

Simple Instructions

- ✓ Ease of use provides accessibility to all employees.

FireShield Blanket

- ✓ Provides an impervious barrier between the fire fighter and the burning device and increases the suppressive effect of the PED-Pad pillow.
- ✓ Constructed from robust fire resistant fabrics that have undergone rigorous testing.

CellBlock High Heat Gloves

- ✓ These durable, high-dexterity gloves are designed to protect the user when approaching overheating devices.
- ✓ Manufactured using composite textiles made to withstand extreme temperatures.
